

## College Credit Opportunities

Senior students in a Tech Prep Program who are currently enrolled in Algebra 2, Pre-Calculus, or Calculus, are eligible to take the exams for the MAT 101 course at Sinclair Community College. Students passing the exams with a 70% or better average will earn the 4 credits for the course from Sinclair.

Students are encouraged to start preparing for the exam during the junior year. Several practice tests are available on the Angel Network. Please visit the student resource page on the GCCC website for instructions to log onto Sinclair's Angel Network and for helpful practice worksheets.

Visit or call the Curriculum Office for more information at 937-372-6941.
